- ✚ Toxic chemicals
- ✚ Harmful microscopic pathogens
- ✚ Heavy metals

Directions for use:

Remove Filter Cap

Fill With Water

Replace Cap

Press for Clean, Pure Drinking Water

Or Drink Direct From Nozzle

Perfect for Your Outdoors Trip!

Just carry **KeoSan Instant Pure** around with you and you will have a convenient supply of clean, great-tasting water.

- ✚ All you need is a source of water.
- ✚ Half-litre capacity. Filters up to 2,500 litres.
- ✚ Simply replace with a new unit, when required.

Now, you can enjoy your camping/hiking/fishing trips without carrying heavy loads of bottled water.

How is the Water Purified?

- ✚ When you squeeze the bottle, the water inside is forced through an unique patent-pending filter.
- ✚ Filter consists of a dense activated carbon block with millions of torturous pathways and absolute pore size of 0.2 micron.
- ✚ Effectively traps impurities, sediments, bacteria and chemical contaminants.
- ✚ Filter is impregnated with pure silver to inhibit the growth of bacteria.
